T E R M S O F A D M I S S I O N .

The requisites for admission to the Freshman Class, are, testimonials of good moral character, a thorough acquaintance with English, Latin, and Greek Grammar; Cæsar's Commentaries or Sallust, Virgil, Cicero's Select Orations, Latin Prosody, the making of Latin; the Gospels of the Greek Testament, Jacob's Greek Reader; Ancient and Modern Geography, Vulgar and Decimal Fractions, Proportion, the doctrine of Roots and Powers, and Algebra, so far as to enable the student to solve equations of the second degree; or such acquisitions as the Faculty shall judge equivalent. It is recommended to students in preparation to read attentively some convenient manual of Greek and Roman History. It is very important that students be well prepared, particularly in grammatical and elementary knowledge. The Latin Grammar of Andrews and Stoddard will be required.

The stated time of examination is on the Tuesday before Commencement. Those who are prevented from attending at that time, may be examined on the second day of the next term.

Candidates for advanced standing are examined in the preparatory studies, and in the various branches to which the Class that they propose to enter have attended. Those who are admitted from other colleges, must present certificates of regular dismissal. In all cases testimonials of good moral character are required.

By a regulation of the Trustees, individuals of suitable age and acquisitions are allowed, without becoming candidates for a degree, to pursue a *partial course* of study, for such period, not less than one year, as they may desire. They will be required to recite with the regular College classes, at least twice a day; will have free access to the Lectures and Library, and on leaving the Institution, will be entitled to full testimonials of their respective attainments.

There are weekly exercises in Declamation and Composition.

In addition to worship, morning and evening, in the Chapel, there is a regular exercise on the Sabbath, in the study of the New Testament, conducted by the President, which all the students are required to attend.

It is required by the laws of the College, that the foregoing studies be pursued, and the regular examinations in them sustained by every candidate for the first degree.

The Faculty esteem mental discipline, the most essential point to be obtained in a Collegiate Education. They consider their highest duty discharged, so far as the student's interest is regarded, when he has been taught *how to employ his own powers*, and that the most perfect success of the teacher, is to secure for the student a correct habit of mental application. In order to secure this, they endeavor to sustain a just medium between a deficiency of employment, and that oppressive amount of requirement which confuses and enfeebles the mind rather than gives clearness, precision and strength to its exercises. Less regard is also had to the number of authors studied than to the perfection of the recitations. It is the design, not only, that the subjects and principles be understood at the time of the recitation, but also, that they be if possible, made so familiar by frequent reviews, as to be retained for future life and practical use.

COMMENCEMENT, &c.

Commencement is on the first Wednesday in August.

The Senior Exhibition is at the middle of the first term.

EXAMINATIONS.

There is a public examination of all the classes at the close of each term.

The final examination of the Senior Class, occurs five weeks before Commencement.

VACATIONS.

The first vacation is of five weeks from Commencement; the second of eight weeks from the second Wednesday in December. There is also a short recess at the close of the second term.

EXPENSES.

College bills, including tuition, room rent and use of library. \$31.00.

General repairs, and other incidental charges, about . . \$6.00.

Board is furnished in the College Commons at cost. In favorable seasons, it is expected not to exceed one dollar per week. The estimated bill for each term, is required to be paid in advance.

Other expenses must vary with the economy of each student. The price of wood is \$2.50 per cord.

MANUAL LABOR.

There are on the College premises, four extensive Work-shops, affording the opportunity for profitable labor for all the students in various kinds of wood work. They contain also, a Printing Office and Painters Shop. No part of the care of this establishment devolves upon the officers of Instruction, but upon a competent Superintendant under the general direction of a Board of supervision appointed by the Trustees. The strictest care is taken on the part of the Faculty, that this opportunity for labor, shall not diminish in the least, but rather promote the mental attainments of the students.

They are confident this may be done, and yet while a healthful, physical and moral influence is exerted, an essential pecuniary advantage may be derived by all who avail themselves of the privilege. There is no student, who *may* not earn from 75 cents to \$2,50 per week, without the slightest interference with the utmost devotion to studies.

To the students of the Academy in the Village—which is under the direction of a Committee annually appointed by the Board of Trustees—the facilities of the shops are extended when practicable. The price of tuition in the Academy is from \$3,50 to \$5 per quarter. The course of Instruction has special reference to those, who design to enter College.
